We, as concerned abutters, understand the wishes of the landowners of lots on Main Street, to be rezoned commercial. However, as these lots back up to residences, we think the ultimate use of these properties needs to be considered. With the recent sale of property on Newport Road being in the millions, will there be any safeguards written into the rezoning to protect us from perhaps a parking lot, bright lights and other disturbances to our quiet neighborhood. Our deck is a mere 30-35 ft from the property line. We think we have a right to know what the immediate plans for the property are and the impact on Prescott Lane
