1. Chapter Work & Discussion:

The committee continued reviewing the recently submitted sections. Discussion included merging sections to reduce the overall content length of the summary document. The document still needs the energy and sustainability sections to be completed.

The group discussed the Vision Statement and the regional context sections to clear up the language.

The group discussed the anticipated work from Colby-Sawyer students. The students are putting together a survey to distribute throughout the community to determine how many homes have generators and how much food would be available in New London in the event of a disaster. The group has received GIS data from Adam and will be working on maps and visual displays.

Homework for the next meeting includes continuing to review the draft language and bring edits to your next meeting.

2. Next meeting, November 21st, at 8:30 AM
3. Mr. Bonin adjourned the meeting at 9:20 AM.
