Conceptual – Harry Snow III - Site Plan Review

The conceptual will discuss the site plan review for converting the properties below from duplexes to four units on each of the following properties: Tax Maps: 085-015-000, 33 Cottage Lane, .54 +/- acres
085-016-000, 63 Cottage Lane, .47 +/- acres
085-018-000, 68 Cottage Lane, .49 +/- acres
085-019-000, 54 Cottage Lane, .53 +/- acres
085-020-000, 42 Cottage Lane, .47 +/- acres
085-015-000, 30 Cottage Lane, .50 +/- acres

The properties received variances from the Zoning Board of Adjustment to allow four-unit structures in the Urban Residential (R-1) Zone.

Board member and abutter, Marianne McEnrue recused herself.

Owner, Mr. Snow spoke to board about the reasons why these buildings were built and why he is converting the properties from duplexes to four units. He gave an overview of the general layout of the buildings and how he would be converting them into apartments without making any expansions. Each unit is connected to town water and sewer and each have their own catch basin. He explained the fire safety protocols he has in place as well as other safety features; such as night lights and 24 hour alarm service.

Mr. Ricker addressed concerns:

- removing parking to allow more room for the emergency vehicles
- to meet open space closer to 35%
- illustrate drainage analyses
- garage use needs to be clarified
- develop bylaw agreements for each unit if sold to include:
 - ✓ trash disposal
 - ✓ snow maintenance

Board concerns and questions:

- Are the layouts the same
- How many people in each unit
- Does it meet workforce standards
- Will the basement storage area be used
- Is there a laundry facility for each unit
- Are there any easements

Jason Reimers, representing abutter Lindsay Holmes, spoke to the board about the 20' wooded buffer that was a part of the subdivision in 1997 and on the 2002 deed as a restriction. The construction was built in violation of the buffer. Maps were reviewed and it showed support walls and pavement with in the buffer.

Ms. Holmes is not opposed to the plans for the renovations. She is asking for the 20' wooded buffer to be restored with a fence and plantings along with removing the pavement because lights and noise have been a problem.

Mr. Snow reaffirmed to the board that he had talked to and offered to the abutters, in terms of privacy, more plantings. When the road was built in 2003 the area was very sparse. These objections were raised at a Zoning Board of Adjustment meeting. Lights have been changed to LED and project downward.

Vice-Chair Dietrich reminded Mr. Snow that this was a conceptual and to address the concerns discussed.

Conceptual – Christine Donovan

Conceptual discussion regarding a mixed use property. The business being proposed is a paint your own pottery studio.

Jerry Donovan, representing his wife Christine, gave a summary of the business. Mrs. Donovan called into the meeting via cell phone: Rachel deThomas communicated between her and the board.

Mr. Ricker questioned whether or not a site plan needed to be approval by the board as long as the approved retail use continues. The Fire Chief maintains full responsibility over safety issues and instilling any fire codes needing compliance. There are seven pre-approved parking spaces that were granted for previous businesses. The business would occupy the entire first floor and no additions nor any major structural changes will be made.

IT WAS MOVED (David Royle) AND SECONDED (Tim Paradis) that a site plan was not required. THE MOTION WAS APPROVED UNANIMOUSLY.

Other Business - None

Master Plan Survey – Tim Paradis gave an update from the Master Plan Subcommittee meeting held on February 21, 2019 about the community survey.

Future Meeting Dates: Next meeting schedule is for Tuesday, March 5, 2019; a joint meeting with the Zoning Board of Adjustment. Refer to the Planning Board Meeting Schedule and the Town's website for updated meeting information.
