

SHORELAND PERMIT BY NOTIFICATION (PBN)

Water Division / Land Resources Management Bureau /
Shoreland Program

RSA / Rule: RSA 483-B / ENV-Wq 1400

	<input checked="" type="checkbox"/> PBN Accepted, Expires: 1/25/2023	
	<input type="checkbox"/> PBN Rejected	Reviewer Initials: (CW)
	File #: 2018-00211	Admin Initials: Emk
	Check #: 12861	Amount: \$106.00

This form is for construction, excavation, filing, or other activities that impact less than 1,500 square feet and add no more than 900 square feet of impervious area within a protected shoreland area, which have no impact on water quality, and follow department regulations. The square footage limits do not apply to special project types on page 2.

This form **cannot be used** for projects under the jurisdiction of RSA 482-A, the NH wetlands statute, including many projects within the water, on the bank or a water body, or within the 100 foot tidal buffer zone. This includes but is not limited to waterfront retaining walls, docks, wetlands, and beaches.

A. Project Site Information		RSA 483-B:5-b, I(a) ; Env-Wq 1406.17	
Waterbody name: Pleasant Lake New London		Map: 062	Lot: 018
Address: 296 Lamson Lane		Block:	Unit:
Town/City: New London	State: NH	Zip code: 03257	
B. Property Owner Information		Env-Wq 1406.17(a)(1,2), Env-Wq 1406.17(b)(1)	
Name: Katherine M. Wilson		E-mail: lanesend2@tds.net	
Address: 296 Lamson Lane		Phone: 526-4069	
Town/City: New London	State: NH	Zip code: 03257	
C. Agent Information		Env-Wq 1406.17(b)(2)	
Name: n/a		E-mail:	
Address:		Phone:	
Town/City:	State:	Zip code:	

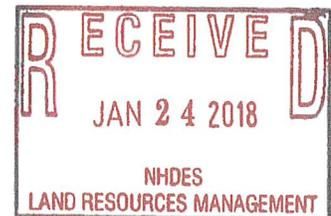

D. Project Description		Env-Wq 1406.17(b)(3, 4, 5)
<p>A complete narrative description of all components of the proposed project must be listed here including all temporary and permanent impacts. Impacts include all construction, excavation, and filling within the protected Shoreland.</p> <p>Running electrical power to the land side of a seasonal dock to charge electric boat. This will be done by running a conduit from the house about 60 feet to the landside of the head of the dock. This will require a ditch less than one foot wide and 12" to 16" in depth. The removed material will be used to backfill the ditch after the placement of the conduit. There should be no change in the amount of impervious surface.</p>		
Area of net change in impervious surface (in square feet): Zero square feet		
Total area to be impacted (in square feet): maximum of 60 square feet		

E. Standard Project Type and Fee		RSA 483-B:5-b, I(a) (1); RSA 483-B:5-b I. (b)
<input checked="" type="checkbox"/>	This project impacts less than 1,500 square feet and adds no more than 900 square feet of additional impervious area.	The permit application fee is \$100 plus \$.10 per square foot of area affected by the proposed activities as listed at the bottom of section D. (e.g. 500 square feet of impacts equals a fee of \$150) Total fee* : \$106.00
F. Special Project Types and Fees		RSA 483-B:5-b, I(a)(2, 3); RSA 483-B:5-b, I(b)(1)
<input type="checkbox"/>	This project is directly related to stormwater management improvements, erosion control, or environmental restoration or enhancement.	The fee for these project types is \$100*
<input type="checkbox"/>	This is a project for maintenance, repairs, and improvements of public utilities, public roads, or public access facilities.	These project types are fee exempt .

*Fee can be paid with check or money order made out to **Treasurer – State of NH** or by cash.

G. Required Attachments		RSA 483-B:5-b, I(a)
<input checked="" type="checkbox"/>	This application includes: <ul style="list-style-type: none"> • Plans clearly and accurately depicting the work to be completed relative to the reference line of the jurisdictional waterbody, all property lines, and the limits of temporary impacts. • Photographs of the area to be impacted and the date the photos were taken. 	

H. Attachment Details		RSA 483-B:5-b, I(a)
<input type="checkbox"/>	This project proposes an increase in impervious area; therefore the plans include dimensions, locations, and areas of all existing and proposed impervious areas.	The total proposed impervious area within the protected shoreland is:
		<input type="checkbox"/> Between 15% and 20%, therefore the applicant certifies that the impervious area is not more than 20% as per Env-Wq 1406.10(a).
		<input type="checkbox"/> Between 20% and 30%, therefore the plans include a stormwater management system shall be implemented as per RSA 483-B:9, V(g)(2).
		<input type="checkbox"/> Greater than 30%, therefore the plans include a stormwater management system designed and certified by a professional engineer to account for all new development, and how the minimum vegetation point score is met as per RSA 483-B:9, V(g)(1,3).
<input type="checkbox"/>	Pervious surfaces are included in this project, therefore the plans include the location and type of each surface, a cross-section of each type of pervious surface that shows the construction method, and specifications for how each type of pervious surface will be maintained.	
<input checked="" type="checkbox"/>	Impacts are proposed between 50 and 150 feet of the reference line; therefore the plans include all areas to remain in an unaltered state within the Woodland Buffer as per RSA 483-B:9, V(b)(2)(A).	
<input checked="" type="checkbox"/>	Impacts are proposed within 50 feet of the reference line, therefore the plans and photos show all impacted segments within this Waterfront Buffer including existing ground cover and trees.	
<input type="checkbox"/>	Trees or saplings within 50 feet of the reference line will be removed; therefore the plans include how the point score will be met as per RSA 483-B:9, V(a)(2)(D). For more information on the point score and vegetation requirements see the NHDES Vegetation Maintenance Fact Sheet .	

J. Conditions and Certifications

Env-Wq 1406.18, 20

The signature below shall constitute certification that:

- The information provided is true, complete, and not misleading to the knowledge and belief of the signer and the signer is subject to the applicable penalties in RSA 641 Falsification In Official Matters.
- The signer understands that: any permit by notification obtained based on false, incomplete, or misleading information is not valid, an accepted Shoreland permit by notification shall not exempt the work proposed from other state, local, or federal approvals, and **incomplete notifications shall be rejected and the notification fee shall not be returned.**
- The signer accepts the responsibility for understanding and maintaining compliance with RSA 483-B and these rules and the project as proposed complies with the minimum standards established in RSA 483-B:9, V and will be constructed in strict accordance with the proposal.

The following conditions shall apply to all projects in the protected Shoreland, in addition to any project-specific conditions included pursuant to Env-Wq 1406.15 and regardless of whether a permit is obtained:

- Erosion and siltation controls shall be: installed prior to the start of work, be maintained throughout the project, remain in place until all disturbed surfaces are stabilized, appropriate to the size and nature of the project and to the physical characteristics of the site (including soil type, vegetative cover, and proximity to wetlands or surface waters).
- No person undertaking any activity in the protected Shoreland shall cause or contribute to, or allow the activity to cause or contribute to, any violations of the surface water quality standards established in Env-Ws 1700 or successor rules in Env-Wq 1700.
- Any fill used shall be clean sand, gravel, rock, or other suitable material.
- For any project where mechanized equipment will be used, orange construction fence shall be installed prior to the start of work at the limits of the temporary impact area as shown on the plans approved as part of a permit or accepted as part of a permit by notification, be maintained throughout the project, and remain in place until all mechanized equipment has been removed from the site.
