**RE: Land Resources Management File #2015-01284 (EMD 2917), 47 Movahs Ln , New London, Tax Map 103/ Lot Number 12**

Dear William, Judith and David Breed:

On April 4, 2016, the New Hampshire Department of Environmental Services (DES) Land Resources Management Program issued Wetlands and Non-Site Specific Permit 2015-01284 to *"Repair 119 linear feet of retaining wall "in kind", impact 685 square feet of bank to restore 78 linear feet of shoreline to more natural conditions, and construct a 6 foot wide access path to the beach on an average of 159 feet of frontage along Lake Sunapee in New London."*

The issuance of the permit was to bring the property in compliance with RSA 482-A, NH Wetlands Law and applicable rules adopted under that statute, and to specifically address and correct the deficiencies noted in the Letter of Deficiency issued to you on July 20, 2015.

As a result of the issuance of this permit, it is determined that the deficiencies described in the Letter of Deficiency will be corrected. DES will close its enforcement file regarding the Property at this time. DES reserves the right to reopen this matter should additional information be received regarding additional violations on the Property.

Please be advised that further work in protected shoreland, wetlands, waters of the state, the upland tidal buffer zone, the bank, flat, sand dune, or other areas of jurisdiction of the Department requires a posted, approved permit prior to carrying out such work.

Thank you for your assistance to bring this matter to a resolution. Should you have any questions, please feel free to contact the office at (603) 271-2147.

Sincerely,

Jen Drociak
