DRIVEWAY PERMIT

To: Deborah D Hoover
7480 Herrick Park Drive
Hudson, OH 44236

City/Town: New London
Route/Road: Little Sunapee Rd (N3
Patrol Section: 214
Tax Map: 30
Lot: 23
Development:

Permit #: 02-335-0024A.1
District: 02
Permit Date: 8/1/2016

8/2/16
Approval
Sent to:
Town of N. 2016
Dover
8/14
MDS

Permission is hereby granted to construct (alter) a driveway, entrance, exit or approach adjoining Little Sunapee Rd (N3350042), pursuant to the location and specifications as described below. Failure to adhere to the standards and engineering drawings previously approved shall render this instrument null and void. Failure to start or complete construction of said facility within one calendar year of the date of this permit shall require application for permit extension or renewal in accordance with the Driveway Access Rules. Facilities constructed in violation of the permit specifications or the rules, shall be corrected immediately upon notification by a Department representative. Any cost by the State to correct deficiencies shall be fully borne by the landowner. The landowner shall defend, indemnify and hold harmless the Department and its duly appointed agents and employees against any action for personal injury and/or property damage sustained by reason of the exercise of this permit.

Drive 1

Location: Approximately 0.65 miles south of New London / Springfield Town Line on the west side of Little Sunapee Rd (N3350042).
SLD Station: 5120 () GPS: 43.43417 N 72.031241 W.

Specifications: This permit authorizes a gravel access to be used as a Single Family Residential drive. Any change in use, increase in use or reconstruction of the driveway requires reapplication.

The right-of-way line is located 25 feet from and parallel to the centerline of the highway. The entrance shall be graded so that the surface of the drive drops 5-inches at a point 18-feet from Little Sunapee Rd (N3350042) edge of pavement to create a drainage swale.

The driveway shall not exceed 15 feet in width. The entrance of the drive may be flared; typically the flare radius is one half the driveway width.
A new 12 inch diameter plastic culvert is required for drainage.

Reference driveway plan is dated July 29, 2016. Applicant shall contact the District 2 office at 603-448-2654 prior to the start of operations to discuss the proposed grading and control of both construction phase and final condition stormwater runoff from the proposed driveway.

Applicant shall install the necessary road construction signage in accordance with the 2009 MUTCD and a certified flagger shall be utilized while working along the NH State Road during the construction of the driveway.

Applicant shall post approved driveway permit at a location so that it is visible from the State roadway during the construction of the driveway. Applicant shall contact the District 2 office at 603-448-2654 at least three days prior to the start of operations to discuss the control of both construction phase and final condition stormwater runoff from the proposed driveway.

Applicant shall not flare the end of the driveway onto the abutting property. For the first 10 feet, the drive shall be constructed perpendicular Little Sunapee Road.

Applicant shall re-grade and clean out the existing ditches located on both sides of the driveway to prevent any stormwater runoff from flowing onto the State of New Hampshire roadway.

Upon completion of the construction of the new driveway, the applicant shall loam and seed all disturbed areas accordingly.

Applicant shall not place/store any snow within the NHDOT Right-of-Way.

Applicant/homeowner shall annually maintain all necessary clearing of brush, trees, etc, so that the sight distance is not inhibited when entering/exiting driveway.

Applicant shall install the necessary erosion and sediment control measures during the construction of the driveway. All erosion and sediment control measures shall be maintained and remain in place until substantial vegetation growth has occurred.

Applicant shall install the culvert at the driveway location and shall have a minimum of 18-inches of cover over the top of the pipe to minimize any deflection.

Applicant shall grade the inlet and outlet of the culvert pipe accordingly so that stormwater flow is not inhibited. The grades shall match the existing grades of the ditchline.
Applicant shall grade the inlet and outlet of the culvert pipe accordingly so that stormwater flow is not inhibited. The grades shall match the existing grades of the ditchline.

Other Conditions:

No structures, including buildings, permanent or portable signs, lights, displays, fences, walls, etc. shall be permitted on, over or under the Highway Right of Way.

No parking, catering or servicing shall be conducted within the Highway Right of Way.

The applicant shall comply with all applicable ordinances and regulations of the municipality or other State Agencies.

The Department has relied on the title and subdivision information provided by the landowner. The Department has not performed additional title research and makes no warranty or representation concerning landowner's legal right to access. In the event of a dispute about the landowner's legal right to the access provided herein, the landowner will defend and indemnify the Department.
