New London Planning Board
Town of New London
375 Main Street
New London, NH 03257

Dear Planning Board,

It has come to our attention that the number of designated handicapped parking spaces at New London Hospital no longer meets the needs of our patients and as such is threatening to affect patient safety.

As patient safety is our number one priority, we have evaluated the situation and propose for your approval a modification for improved patient parking.

Currently there are six handicapped-designated spaces located at the main entrance of New London Hospital. We have identified an additional four parking spaces that can be converted for handicapped parking bringing the total number to 10. Given our patient census and the high demand for additional handicapped parking, we feel that this improvement will better meet our patient needs and improve safety for patients, visitors and staff at New London Hospital.

Enclosed is a parking blueprint for your review showing this proposed change. If you have any questions, please contact Scott Ireland at scott.ireland@newlondonhospital.org or 603-526-5522.

Sincerely,

Bruce P. King

Bruce King
President and CEO, New London Hospital
