To: The Zoning Board

Town of New London, NH 03257

To all Zoning Board Members,

As the closest neighbor to the William and Linda Minsinger property I have been informed of their desire to expand their current garage to accommodate two cars and replace the three season porch in the rear of their house. My land directly abuts their property to the north and the additional garage would come closest to my property line. My three bay barn abuts that area of shared tree line and thus I will not really see their addition and therefore feel it will not be impactful on me or the value of my property. I am not opposed to their request for a zoning variance.

Sincerely,

Abutter letter  
from 115 Old Main St.  
Todd Schweizer
