RE: Building Permit
Tax Map 048-009-000

Dear Ms. McDevitt:

It has come to my attention and it appears from the road that the deck next to the house has been expanded and some new out buildings has been constructed on your property. The Town building permit records do not reflect these changes. If changes have been without a building permit, an after-the fact building permit must be submitted.

Please contact me by Monday, Feb 29, 2016 to clarify and describe what changes have been made on the property. Please be specific in describing what changes have been made to the property. If construction has occurred without a building permit, please submit the building permit application by Monday, March 7, 2016. A building permit application is enclosed for your convenience. Please review the Town's website for information on the building permit application and instructions, and the Zoning Ordinance. Information is also available at the Town Office.

Your prompt attention to addressing these concerns would be appreciated. If you have any further questions, please contact me by email at zoning@nl-nh.com or I can be reached at 526-4821, ext. 16.

Respectfully,

Lucy A. St. John, AICP
Planning and Zoning Administrator
