Re: New Driveway Permit Application / 2007 Driveway Regulations

Dear Planning Board:

Enclosed please find a new application form for driveway permits I designed recently with feedback from the Fire Chief, Public Works Director, Town Administrator and Planner. We began using this form recently, which is designed to line up tightly with the Driveway Regulations and requires the applicant to provide more detailed information to help us with the staff reviews.

Could you look at your 2007 Driveway Regulations, which has the older application form at the end, and either remove references to the application altogether, or incorporate this new application (or some other version the board deems appropriate).

I want to make sure that the full text of the Driveway Regulations remains in tact and available on the website, but not have 2 different forms out there to confuse the applicant. Thank you.
