## Permits

To help you navigate the complexities of the environmental permitting process, DES can arrange a "pre-application meeting" for you to meet with representative(s) of the specific permit program(s) necessary for your project. Don't know what permits you need? Just fill out the [pre-application meeting request form](#) and we'll bring the right people to the table. This service is free of charge, too. Whether you are a homeowner looking for a wetlands permit, or a corporate owner constructing a new business complex that requires multiple permits, we can arrange to bring together the appropriate permit staff from DES, as well as officials from other federal, state, and local agencies, as requested by the customer.

Please complete the [on-line form](#), or contact the Public Information and Permitting Unit directly at [timothy.drew@des.nh.gov](mailto:timothy.drew@des.nh.gov) or call (603) 271-3306 to discuss your upcoming project.
