RE: Pike Brook Road, TM 135, Lots 8 & 10

Dear Lucy,

Blakeman Engineering, Inc. has been performing inspections of the road construction realigning Pike Brook Road on the properties noted above. Construction layout of the road and grades was provided by Pennyroyal Hill Land Surveying. The site contractor is Mark Usko, Usko Construction. Construction details for this work are found on the following plans, which are contained in the planset approved by NH DES (NH DES permit AoT-1072, dated April 21, 2016):

Pike Brook Road Plan & Profile, dated February 3, 2016

Misc Notes and Construction Details, dated February 3, 2016, Revised April 14, 2016

A final inspection of the road construction was conducted on June 9, 2016.

Pursuant to your request through Vona Construction, this letter confirms that the location and construction of the road is in conformance with the approved plans and specifications noted above.

Please call or e-mail if you have any questions on this.

Very Truly Yours,
Blakeman Engineering, Inc.

Peter J. Blakeman, PE
