Planting Notes:

- Plant size and types subject to availability at the time of planting. 'Native' or 'Improved Native' substitutions only, to be approved by Landscape Architect.
- Plant locations are approximate, plant locations may vary based on subsurface conditions and view corridors. Final plant locations to be approved in field by Owner and/or Landscape Architect prior to installation.

General Notes:

- Compacted soils and gravels to be removed from old road bed, and replaced with an organic based planting mix.
- Old road bed to be recontoured such that contours are returned to approximate pre-road grades, on Carr Lot.
- Leaf matter, old log snags and forest duff scattered over disturbed areas to visually restore, and physically stabilize site on the non-turf areas of the old road bed.
- Revegetate disturbed areas along the proposed road with 'New England Roadside Matrix Upland Seed Mix' from New England Wetlands Plants, Inc. on Carr and Miller properties.
- Turf areas on Miller property to be planted with Blue Seal 'Play Area' Turf Mix.
- See plans by Blakeman Engineering for roadway construction, wetland crossing and limit of clearing information.
