Portsmouth, NH 03802

Re: Pike Brook Road  
Tax Map 135, Lots 8, 10 – New London, NH

Permit: AoT-1072

Dear Ms. Hudkins:

Based upon the plans and application, approved on April 21, 2016, we are hereby issuing RSA 485-A:17 Alteration of Terrain Permit AoT-1072. The Department of Environmental Services grants a waiver of Env-Wq 1507.05, Channel Protection. This waiver is granted due to the very small discharges and flow volumes. The permit is subject to the following conditions:

1. Activities shall not cause or contribute to any violations of the surface water quality standards established in Administrative Rule Env-Wq 1700.
2. You must submit revised plans for permit amendment prior to any changes in construction details or sequences. You must notify the Department in writing within ten days of a change in ownership.
3. You must notify the Department in writing prior to the start of construction and upon completion of construction. Forms are available at: <http://des.nh.gov/organization/divisions/water/aot/categories/forms.htm>.
4. The plans, latest revision dated February (received April 21, 2016) and supporting documentation in the permit file are a part of this approval.
5. All stormwater practices shall be inspected and maintained in accordance with Env-Wq 1507.08 and the project Inspection and Maintenance (I&M) Manual. All record keeping required by the I&M Manual shall be maintained by the identified responsible party, and be made available to the department upon request.
6. **This permit expires on April 21, 2021.** No earth moving activities shall occur on the project after this expiration date unless the permit has been extended by the Department. If an extension is required, the request must be received by the department before the permit expires. The Amendment Request form is available at: <http://des.nh.gov/organization/divisions/water/aot/categories/forms.htm>
7. This permit does not relieve the applicant from the obligation to obtain other local, state or federal permits that may be required (e.g., from US EPA, US Army Corps of Engineers, etc.). Projects disturbing over 1 acre may require a federal stormwater permit from EPA. Information regarding this permitting process can be obtained at: <http://des.nh.gov/organization/divisions/water/stormwater/construction.htm>.
8. If applicable, no activity shall occur in wetland areas until a Wetlands Permit is obtained from the Department. Issuance of this permit does not obligate the Department to approve a Wetlands Permit for this project.

Sincerely,

Bethann McCarthy, P.E.  
Alteration of Terrain Bureau
