**RE: Land Resources Management File #29 Boulder Point , New London, Tax Map 15/ Lot Number 2**

Dear Raul & Karen LLC:

On October 28, 2016 personnel from the Department of Environmental Services (DES) Land Resources Management Program received a restoration monitoring report from Pierre J. Bedard & Associates, P.C. The purpose of the submittal of the restoration monitoring report was to determine compliance with RSA 482-A and applicable rules adopted under that statute, and specifically whether the deficiencies noted in the Letter of Deficiency issued to you on February 10, 2016 have been addressed.

After reviewing the restoration monitoring report, it was determined that the deficiencies described in the Letter of Deficiency have been corrected. DES will close its enforcement file regarding the Property at this time. DES reserves the right to reopen this matter should additional information be received regarding additional violations on the Property.

Please be advised that further work in protected shoreland, wetlands, waters of the state, the upland tidal buffer zone, the bank, flat, sand dune, or other areas of jurisdiction of the Department requires a posted, approved permit prior to carrying out such work.

Thank you for your assistance to bring this matter to a resolution. Should you have any questions, please feel free to contact the office at (603) 271-2147.

Sincerely,

Jen Drociak  
Compliance Specialist  
Land Resources Management Program
