

APPLICATION FOR A VARIANCE

To: Zoning Board of Adjustment, Town of New London, 375 Main Street

Name of owner/applicant: Tod Schweizer

Mailing Address: P.O. Box 808, New London State: NH Zip: 03257

Home Telephone: 603-398-3053 Work Telephone: _____ Cell: _____

Email address: todwithoned1@gmail.com

Owner of property: same
(if same as applicant, write "same")

Location of property 813 Little Sunapee Road

Tax Map Number: 32 Lot Number: 001 Zone: R2

A variance is requested from the provisions of Article: V Section: C.2.

of the Zoning Ordinance to permit An 8x8 shed closer than 20 feet to the side property line. Currently shed roof overhang is 4.7 ft from property line.

Facts supporting this request:

1. The variance will not be contrary to the public interest:
The shed is within 20ft of a nonbuildable sliver of land between Route 114

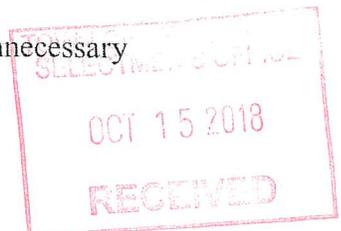

(Little Sunapee Road) and the lake. It will not be contrary to the public interest and is small and discrete.
The shed does not block views, access or impact the public interest in any way.

2. The spirit of the ordinance is observed: The spirit of the ordinance is to prevent the close proximity of structures and to provide buffer area between properties. The sliver of abutting land is not buildable and the shed should not affect value of abutting property or restrict its use. The shed is small and the lot is restrictive.

3. Substantial justice is done: The existing lot is very small and unquily compromised by zoning setback requirements, leaving no realistic buildable areas. This shed will only be of benefit by making the property tidy and preventing trash or the grandchildren's toys from blowing into the lake.
This request is modest and reasonable.

4. The values of surrounding properties are not diminished; and:
The shed is mostly hidden from view. There are no foreseeable negative impacts to any surrounding properties or the neighborhood as a whole.

5. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship.

Hi Dan.

Your request is reasonable to give. 90 days from my August 22nd letter would take us right to Thanksgiving. That should give you plenty of time to work on your state permit and get your variance application in.

Thank you.

Nicole,

Mr. Schweizer received your letter and forwarded it to me. We will be applying for a State shoreland permit and relief from the Town Zoning requirements soon. We have already started the process by surveying the property. We have also shown good faith and cooperation with the Town by setting up our initial meeting with you onsite.

We would like to request that more time be provided to allow for the State Shoreland Application process, review and also for us to properly complete the requirements for any required Zoning variance(s). It would be beneficial to have an approved shoreland permit in hand prior to the zoning hearing. It would also be great if we could meet with you again to go over our proposed variance(s) and plan to see if there are any additional thoughts or suggestions you may have.

We would like to request that the timeline for submitting the complete zoning applications be changed to 90 days from the receipt of your letter. The structures in question are not a nuisance and have not resulted in any negative impacts to the surrounding neighborhood therefore there is no immediate need for action.

Please note that we plan to modify the shower enclosure to have an open bottom which would classify it as a fence and not an expansion of the existing structure.

Please give me a call or reply to this email if you would like to discuss.

Best,

Dan

RE: 813 Little Sunapee Rd., New London NH
Parcel 032/ 001/ 000/

Thank you for applying for two (2) After-the-Fact Building Permits for 1) adding a new 30-square-foot attached platform for outdoor showering to the existing house at 813 Little Sunapee Road; and 2) a 56-square-foot shed. Unfortunately, the house is already non-conforming due to the fact that it is either located completely within the 50-foot Waterfront Buffer, or it is straddling the Waterfront Buffer. Alterations or expansions, including new foundations and expanded footprints, are NOT PERMITTED per Article XX, Sections B.1 and B.2 of the New London Zoning Ordinance. In addition, no structures, construction or land disturbance is permitted within the 50-foot Waterfront Buffer per Article XVI, Section C.2 of the New London Zoning Ordinance.

In addition, any activity, land disturbance or construction within the 250-foot Shore Land Overlay District may also require state permits from the New Hampshire Department of Environment Services.

The lot also appears to be located within the 100-year-floodplain, FEMA zone A and so all construction must meet the requirements of the Floodplain Overlay District as outlined in Article XV of the New London Zoning Ordinance. If a Variance is pursued in the Special Flood Hazard Area, additional standards must also be met per XV.I.2.

Therefore, the 30-square-foot platform and 56-square-foot shed must be removed within 30-days of receipt of this letter; or relief from the zoning ordinance must be immediately sought by submitting a complete application for a Variance within 30-days of receipt of this letter. I respectfully request that you call or email me by WED. SEPTEMBER 5TH to let me know which option you intend to pursue.

Tod H. Schweizer, Trustee

Per Article XXVII of the New London Zoning Ordinance, Section 5 and 6:

5. Upon any well-founded information that this Ordinance is being violated, the Board of Selectmen shall take immediate steps to enforce the provisions of this Ordinance by seeking Injunctive Relief as provided in RSA 676:15, Fines and Penalties as provided in RSA 676:17, Cease and Desist Orders as provided in RSA 676:17-a, and Local Land Use Citations as provided by RSA 676:17-b including any amended statutory provisions.

6. Any person who violates any of the provisions of this title (Title LXIV, RSA 676:17, I), or any local ordinance, code or regulation adopted under this title, or any provision or specification of any application, plat or plan approved by, or any requirement or condition of a permit or decision issued by, any local administrator or land use board acting under the authority of this title shall be guilty of a misdemeanor if a natural person, or guilty of a felony if any other person; and shall be subject to a civil penalty of \$275 for the first offense and \$550 for subsequent offenses for each day that such violation is found to continue after the conviction date or after the date on which the violator receives written notice from the municipality that the violator is in violation, whichever is earlier, (or as specified in RSA 676:17, as amended).

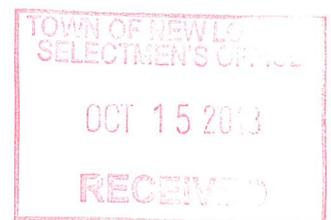

Thank you for your anticipated cooperation in this important matter.

Sincerely,

Nicole Gage

RE: 813 Little Sunapee Rd., New London NH
Parcel 032/ 001/ 000/

Thank you for meeting with me last week at 813 Little Sunapee Road with Daniel Monette of CLD/Fuss & O'Neill. During our meeting on July 25th, I recommended that you consider a LOMA (letter of map amendment) through FEMA to officially declare the property out of the 100-year flood plain, if a licensed land surveyor can show the property is elevated enough. Having a LOMA on file would reduce the number of regulations that must be met when repairing structures or installing structures on the property.

Please allow this letter to serve as a reminder that during our meeting I specifically requested that you apply for an After-the-Fact Building Permit at the town office by the end of this week (July 30-Aug.3rd) for the outdoor shower platform and the tool shed; and that if you do not wish to apply for permits the alternative would be to remove the structures immediately.

I look forward to receiving the application soon.

Sincerely,

Nicole Gage
Zoning Administrator

RE: 813 Little Sunapee Rd., New London NH
Parcel 032/ 001/ 000/

It has come to the Town's attention that some building activity may have occurred on your property located at 813 Little Sunapee Road. It appears sheds may have been constructed without a permit, and within the 50-foot Waterfront Buffer of the Shore Land Overlay District. Our records do not indicate that a building permit was applied for.

You may not be aware of the Town's building permit process and application requirements; therefore, please contact Cary Lagace by Monday July 23rd to discuss what improvements, if any, have occurred at the property and the building permit application process.

Depending on the nature of building activities which may have occurred at the site, information may be required to determine compliance with the Town's Zoning Ordinance, the Town's Shore Land Overlay District, septic system requirements, and any State permits which may be needed from the New Hampshire Department of Environmental Services.

Attached is a copy of the Building Permit Application, Fee Schedule, and FAQs. **Again please contact Cary Lagace by Monday, July 23, 2018 at (603) 526-1243 or email at landuse@nh-nl.com.**

Sincerely,

Nicole Gage
Zoning Administrator
