

## REGIONAL WORKSHOPS: Data, Maps, Action! What's New in the 2015 Wildlife Action Plan

The NH Wildlife Action Plan has just been updated for the first time in 10 years and there is a wealth of new data and information! Not to speak of some really great new Wildlife Habitat maps (last updated in 2010) – they have changed!

**Join us to learn what's new** and how you can use this information to take your wildlife and conservation efforts to the next level. This workshop will provide an overview of the 2015 Wildlife Action Plan, a review of the revised wildlife maps, data and information in the updated plan, and most importantly, provide actions you can take to help NH's wildlife and habitats. This workshop will be held in several different locations across the state.

All workshops will be held from 6:00 – 7:30pm  
Refreshments will be provided
